

One Hundred Appeals Made Against the City Assessment

Many Property Owners Claim That Valuation is Too High

One Man's Papers Went to Wrong Address

Revision June 14

City Assessor McMillan is in receipt of over 100 appeals against assessments on land in different sections of the city and from appearances the appeals which the court of revision will take up on June 14th will number about three hundred.

The reasons given for appealing against the assessment by the majority of those who have deeded their objections to date, are mainly on the ground that the assessment exceeds the value of the property in question. One gentleman from Nova Scotia appeals on the ground that his assessment notice was sent to the wrong address and that he had no knowledge of the assessment on the ground that water and sewer mains do not serve the property.

These appeals will be considered by the court of revision on June 14th. After this the appellants have the opportunity of taking their cases to the court of appeal as a final court of appeal. Should they be satisfied with the decision of the court of appeal they can then take action in the district court.

RECORD MOST THAT IMMIGRATION HALL

NEARLY SEVEN HUNDRED PERSONS, REPRESENTING FIFTEEN NATIONALITIES, REGISTERED AT LOCAL OFFICE IN MAY—LOOKING FOR FARMS.

That it is the call of the land that is attracting the great majority of those who are coming to Western Canada from the United States and European countries is demonstrated in the monthly report of the Edmonton Immigration office issued today by W. J. Webster, immigration agent, which shows that out of 432 persons coming to the hall during the month who could be classified as follows: by occupation, 257 were farmers and 61 were farm laborers.

Eighty-eight and thirty-eight registered at the hall during the month of May. Of these 246 were women and children. Among the number remaining almost every occupation that is represented in Western Canada are represented.

In addition to the farmers and farm hands already mentioned there are 76 school teachers, 18 clerks, 10 drivers, 2 female servants, 1 coal miner, 11 machinists, 20 carpenters, 2 gardeners, and 2 cooks.

Although female servants are more in demand in Edmonton just now than followers of any other occupation, only two of these came to the hall during the month. Those who come never have any difficulty in finding employment as there are always several applications for help.

The nationalities registered in the Edmonton Immigration hall are as follows:—English 125, Irish 30, Scotch 15, Germans 10, Scandinavian 15, French and Belgian 21, Americans 125, Canadians 12, Welsh 28, Colored Americans 1, Hollanders 30, Hungarians 5, Russians 125, Finlanders 3.

A singular coincidence in connection with the May immigration is that the number of Russians, Americans and British subjects, coming to the hall during the month is the same, namely 125.

The great majority of the Russians now coming to Western Canada are coming on the recommendation of their countrymen who have spent some time in the country and are now pretty well satisfied with the results. The British subjects, coming to the hall during the month is the same, namely 125.

JUSTICE BECK REFUSES DATE FOR WATERWAYS

WILL NOT SET HEARING OF FAMOUS CASE DOWN FOR TRIAL WHILE HON'S. RUTHERFORD AND SIFTON ARE IN EUROPE.

That the hearing of the famous case between the provincial treasurer, the Royal Bank and the Alberta and Great Waterways railway and Canada West Construction Co., in which the province seeks to obtain control of \$5,000,000 of Waterways monies now deposited in the Royal bank, will not take place until after the vacation is practically determined by Justice Beck's refusal this morning to give an order setting the action down for trial.

H. F. Clarry, deputy attorney general, appeared before his lordship in chambers this morning to apply to have the case set down for June 20. The application was opposed by Frank Fink, K. C., counsel for the Royal bank, and by H. E. Hyndman, for the Alberta and Great Waterways railway and the Canada West Construction Co., on the ground that Premier Sifton and ex-Premier Rutherford, two of the most important witnesses in the case, will be in Europe. The defence proposed to call both the premier and ex-premier to the stand when the action comes up for trial. It is possible that the province may appeal against Justice Beck's decision in declining to set the action down for trial.

POLICE REPORT

The report of the chief of police for the month of May shows that under city bylaws there were three convictions; under provincial acts, 86 convictions; 2 cases discharged and 5 withdrawn, a total of 92. Under the criminal code there were 96 convictions, 4 persons were discharged and 10 charges were withdrawn, a total of 110.

During the month \$298.75 in court fees and fines were turned over to the city secretary-treasurer.

ELECTRIC DEPARTMENT

The report of the electric light department for the month of May shows an increase in every branch of the department. During the month 218 applications were wiring permits were needed, which is equivalent to 2276 sixteen candle power lamps. The following electric appliances were installed: three vacuum cleaners, one vacuum cleaner; seven toasters; 18 irons; four heaters; one fan; one blue print machine; three washing machines. Fifteen power department nine services were connected; 13 motors were installed; light and water meters were needed. Three Tungsten street lights were installed.

J. W. Martin, inspector of Dominion Lands agencies for Alberta and British Columbia, came into the city this morning.

KANSAS CRIPPLED

LUSI AND MILLS OUT

A wire received this morning from Deacon White at Brandon states that when examined under the X-ray Skillman's hand appeared to be badly injured, a couple of bones being fractured. He will be unable to perform for several weeks. The Deacon further states that Lusi and Mills are out of the game with sprained ankles and it will be several days before they are in shape. To replace Skillman Deacon has secured Mike Dickenson from the Seattle Club. Dickenson will join the team on Monday at Moose Jaw.

VANCOUVER UNIONS PREPARE FOR FIGHT

TRADES AND LABOR COUNCIL REITERATES DETERMINATION TO CALL GENERAL STRIKE

Vancouver, B. C., June 2.—The trades and labor council called a meeting last night with an attendance of one hundred representatives of 52 unions, stood on the verge of last week's special meeting. This is to declare a general strike on Monday unless the employers' association submit to an arbitration of the present dispute. The trades and labor council is a committee with full power to act. A feature of the meeting was the distribution of leaflets and organized work of Vancouver to work on Monday as a protest against the declaration of war and the annihilation of organized labor by the master builders' association backed by the employers' association of the manufacturers' association it was declared to fight to a finish for its existence. Another handbill headed "Beware of what you eat," contained a list of city bakeries which were declared to be unclean and labor and appeals to all citizens to ask for union-made bread.

Calgary Also Affected

Calgary, Alb., June 2.—Briekwork in the city was tied up yesterday owing to the fact that according to the union men, signed by the unions and employers generally. It is not anticipated that the strike will be a serious one. Already seventeen builders who are not associated with the builders exchange have signed up and agreed to work on the 20 cents an hour they ask for. This afternoon the union and the builders' exchange held a meeting at which it was hoped that a settlement will be reached. There are about 250 affected.

RUSH CONSTRUCTION ON CAMROSE CUTOFF

CONTRACTORS UNDER BONDS TO CLEAR RIGHT OF WAY BY MONDAY—GRASS BUSY

Strathcona, June 2.—Last Tuesday a large gang of men started work on the construction of clearing the right of way on the line of the Canadian Northern railway between this city and Camrose. The beginning of the work on the farm of Max Davies on the line takes from some fifteen miles southeast and from this point the gangs of men are now working both ways on the survey. That no time is to be lost in connecting Camrose with Strathcona by the right of way clearance by the terms of the contract in which the company insists upon the completion of the right of way clearance by the coming first of July. As many miles of the survey cut through heavy timber the work will be a hard one. It is taken that a large force of men will be required on the work to clear the line within a week.

Grading Contracts Let

With the exception of a small portion of right of way, the contracts for grading the new line are practically all awarded to the several sub-contractors. For considerable distance this side of Camrose construction is going ahead with all despatch under the conditions and it is reported that one sub-contractor is located south of this city ready to commence grading work on the first miles of line from this end.

G.T.P. TO CHANGE SCHEDULE JUNE 14

ORIGINAL INTENTION WAS TO EFFECT CHANGING NEXT DAY—NO EXPLANATION.

According to information received at the local G. T. P. passenger office from Winnipeg, the summer passenger schedule on the line will not come into effect until June 14th. According to the original plans it was to have been placed in operation on June 11th. No explanation for the postponement of the service has been given.

This means that the present service over the line to Bison will be continued until June 11th, as will also the 30-hour service between Edmonton and Winnipeg. The train to Telford, Camrose and Mirror will not be put on the road until June 11th.

Dr. Hobbelt, principal of Alberta College, left this morning by the G. T. P. at 9:30 this morning on a three months' trip to Europe to make a tour of the continent.

Last night the pupils and faculty of Alberta College presented him with an address and travelling case as a token of their appreciation.

CHENYOWATINS THE OAKS STAKES

FOURTH OF CLASSIC RACES AT EPSOM GOES TO AN OUTSIDER WHO ANNEXES PURSE OF TWENTY THOUSAND DOLLARS.

Epson, Eng., June 2.—The Oaks Stakes, 5,000 pounds sterling, one mile and a half, for 3-year-old fillies, the fourth of the classic races, was won here today by an outsider, Mr. Broderick Goble's Ghermora, by Harry Trevelyan, who did not run as a two-year-old and started at 25 to 1. George F. Foster's Totles, 7 to 2, was second, and Lord Derby's Blue Tanager, 9 to 1, third.

In the Derby on Wednesday Lord Derby's Stodard was second and Captain Foster's Totles was third. Eleven horses started.

PREPARE MODEL GAS AGREEMENT SOON

COMMISSIONERS AND INDUSTRIAL COMMITTEE ARRANGE TO CARRY OUT COUNCIL'S INSTRUCTIONS—THREE AGREEMENTS TO BE PREPARED.

Mayor Armstrong advised a Capital representative this morning that one of the next questions to be taken up by the commissioners will be the preparation of a model gas agreement. Some time ago the commissioners and industrial committee of the council were instructed to prepare this type of agreement and as soon as it is completed an agreement with the International Heating and Lighting company will be prepared.

The special committee appointed to investigate the proposition submitted by J. Goates, representing oil country capitalists, will hold a meeting sometime next week, when Mr. Goates will submit to the committee an estimate as to the manufacture of gas which would meet the requirements of the city for ten years.

These three agreements, when completed, will be submitted to the council, and a decision reached as to whether one or all of them should be submitted to the ratepayers.

POPULATION INCREASE 50 PERCENT IN 10 YEARS

COUNTRY WEST OF THE LAKES WILL SHOW GAIN OF MILLION AND A HALF—WILL TAKE THREE YEARS TO COMPLETE CENSUS.

Ottawa, Ont., June 2.—Canada's machines similar to those used in Washington for the census of last year, Charles W. Spicer, an official of the American census bureau who has been temporarily borrowed by the Canadian bureau, is now in Toronto superintending the manufacture of a number of machines to be used in tabulating the schedules turned in by the enumerators. Reports from census bureau officials who have been receiving reports as to the prospective amount of the increase of the population in many districts in the West of the great lakes, it is estimated there are now about a million and a half more people than there were in 1901. Eastern Canadianly devised tabulating and computing a million and a quarter.

Midnight Shooting Affray Almost Certainly Fatal for Officer Who Tried to Prevent a Hold-Up

RAILROADER ARRESTED; COMPANIONS ARE IN JAIL

RED DEER, June 2.—As the result of attempting to prevent the hold-up of two citizens of Red Deer in the southeast part of the town, at 11:30 last night, Chief of Police George Bell lies at the point of death and a railroader by the name of Kelly, whose antecedents are unknown, together with three companions, names unknown, are in the police station.

The capture was effected by the Boy Scouts and Chief Muir of the fire department.

While George Munroe, a tailor and W. L. Clark, a printer in the News office were strolling in the south-east part of the town at a late hour last night they were suddenly confronted by a man masked, armed with a revolver which he pointed at them. They threw on their hands uttering a shout. Chief Bell who lived but a short distance away from the place where the hold-up occurred heard the cry and going out witnessed the tableau. He immediately approached to assist the two men, but he did not care to attempt the capture of the man alone. He blew his whistle to call another policeman from the main street whereupon the yeoman turned quickly, firing two shots, one of which penetrated his stomach causing injuries to his intestines which will probably result in his death. Immediately after the firing of the shot the highwayman made good his escape in the dark.

Munroe and Grant then carried Bell to the Memorial hospital where he was placed in the care of Dr. Collison.

All attempts to discover any trace of the fugitive to the time of the shooting proved unavailing but an alarm was spread abroad immediately. Some two dozen citizens volunteered the use of automobiles to spread the alarm about the country in every direction in order that the footpad might not make good his escape. Farmers for miles around the town were notified and the hold-up and instructed to be on the look out for the assassin.

With a description furnished by the chief the boy scouts turned out this morning to search for the fugitive in the country immediately surrounding the town. Shortly after eight o'clock they discovered a man named Kelly hiding in the bushes close to the highway and immediately fanned out to surround him. He pulled a gun and threatened to shoot if they approached. They fell back scattering a shriek about him while several boys went to the city to get help. Chief Muir, who is in the department, was a member of the police force executed a flank movement and approaching from the rear to within a few feet of the man on him and called upon him to surrender. Kelly dropped his gun and was brought back to the city.

Kelly came in with a railroad construction gang which is preparing to build a line from the city to the west. He has been living in a tent near the construction grounds.

At 12 o'clock this morning no charge had been laid against him, it is understood that one is to be laid and that he will appear in court for trial this afternoon at 3 o'clock.

When brought before Chief Bell at the hospital this morning the Chief stated that he recognized the clothes worn by Kelly as being similar to those worn by the highwayman but that inasmuch as the footpad wore a mask he was unable to identify his face.

OFFICIAL NOTICE NAMES ANOTHER MAN

The official warning and instructions issued to arrest sent out by the Red Deer police to Edmonton today gives the name of the highwayman wanted for the assassination of Chief of Police Bell as Alex McLeod. The description is as follows: height 5 ft. 10 in., aged 21 or 22 years, clean shaven, dark complexion, high cheek bones, thin lips, which appear to be drawn in. He was wearing a blue sweater, brown overcoat and length faced boots.

George Bell had been chief of police at Red Deer for only three weeks but has been a resident for some time and earned the respect of every citizen in the town. He was a young man about 30 years of age, a native of Scotland, married and had one child, only a month old. Mrs. Collison and Parsons who are in attendance state that he has no chance of recovering.

Another holdup occurred earlier in the evening in which a citizen was held up and relieved of one dollar and two cents. They escaped but this morning the three other men were arrested on suspicion of being the highwayman. Nothing is known about the and the police refuse to give any information, although it is supposed that they were part of a gang of which Kelly was the head.

Inspector Worsley of the Edmonton detachment left this morning to assist in the case.

Western Associated Press

The Western Associated Press gives the following story of what occurred: Calgary, June 2.—George Bell, chief of police of Red Deer, was shot by a masked highwayman shortly before midnight and will likely die. George Horner, a tailor and a printer named Grant were on their way home when a man pointed a gun at them and told them to hold their hands up. They did so. Chief came on them suddenly and shot at the man, but he was not hurt and made a dash for the highwayman. He is now under arrest.

Kelly Was Seen Making Mask

Western Associated Press. Red Deer, June 2.—A local tough named Kelly is believed to be the man who shot the Chief of Police last night. He worked in a lively stable and was according to the evidence of a citizen was seen making a mask yesterday. Kelly has disappeared and the posse is now out scouring the country for him. He is very bold and may not last through the afternoon.

OFFICE FOR NEW COMMISSIONERS

WILL PROBABLY BE LOCATED IN NEW OFFICE DIRECTLY OPPOSITE COUNCIL CHAMBER.

Owing to the fact that there are few offices in the city hall which are not occupied at present, Commissioners Neat and Gandy have had considerable difficulty in finding permanent quarters for themselves. The question was broached at the commissioners' meeting yesterday afternoon and it is probable that the office at the head of the stairs, opposite the council chamber, will be used by the new commissioners for a time.

This office was originally constructed for the cashier of the street railway department, but it has not been advisable to have him move from the car barns to date.

WRENIE DODDS GOES TO HIGHER POSITION

NEW EXCURSION BRANCH OF C.N.R. PLACED IN HANDS OF EDMONTON MAN

To assume the duties of chief excursion agent in the general passenger department of the C. N. R. at Winnipeg, W. C. Dodds who for the past two years has been city passenger agent for the C. N. R. in this city will leave for the east within the next few days. His position in the Edmonton ticket office will be taken by Joseph Mullin who arrived in the city yesterday from Windsor, Ontario, where he has been engaged as city ticket agent for the C. P. R. during the past eight years.

On going to Winnipeg, Mr. Dodds will have charge of an entirely new branch of the passenger department. Hitherto excursions have been handled along with the general work of the passenger department by members of the office staff. The work has grown to such proportions, however, that it has been necessary to make a special department of it and this department of which Mr. Dodds will have charge.

Whether you buy Blue Ribbon Tea, Blue Ribbon Coffee or Blue Ribbon Baking Powder, your refund order is just the same. If you are not fully satisfied after a fair trial you may return what is left and receive your money from the grocer. We could not afford to make this general offer if we did not know that Blue Ribbon goods are pure, wholesome and superior to other brands.

Newport, R. I., June 2.—Secretary Meyer presided today and delivered an address at the opening of the Naval War College. In addition to the Secretary of the Navy the speakers included Admiral Stephen B. Luce, U. S. N., retired, who is known as the father of the war college.

For Falling Hair

YOU RUN NO RISK WHEN YOU USE THIS REMEDY

We promise you that, if your hair is falling out, and you have not let it go too far, we can repair the damage already done by using Rexall "93" Hair Tonic, with persistency and regularity, for a reasonable length of time. It is a scientific, cleansing, antiseptic, germicidal preparation, that destroys microbes, stimulates good circulation around the hair roots, promotes hair nourishment, removes dandruff and restores hair health. It is as pleasant to use as pure water, and it is delicately perfumed. It is a real toilet necessity.

We want you to try Rexall "93" Hair Tonic with our promise that it will cost you nothing unless you are perfectly satisfied with its use. It comes in two sizes, prices 50c and \$1.00. Remember, you can obtain Rexall Remedies in this community only at our store—The Rexall Store, A. Archibald.

Centralia, Wash., June 2.—Several hundred delegates were on hand today when President N. B. Coffman called to order the annual meeting of the Southwestern Washington Development association. The settlement of the leased off lands by practical farmers and the development of the coal areas of this section of the State are the chief subjects slated for discussion during the three days' session.

COUNCIL & G.T.P. OFFICIALS HOLD A LONG CONFERENCE

REPRESENTATIVES OF COMPANY CLAIM CITY HAS AGREED TO PAVE PORTION OF MCKENZIE AVENUE—CITY HAS NO RECORD OF SUCH AGREEMENT.

The two hour conference between the magnates of the Grand Trunk Pacific Railway and the city council last evening, upon the proposed change of the location of the company's tracks from the south to the north side of McKenzie avenue, leaves the situation as between the city and the company practically as before negotiations commenced. The council's request that the company withdraw from McKenzie avenue altogether, leaving a clear eighty feet of roadway over the full length of the avenue, had been dropped as the outcome of a private discussion, and the failure of the council to discover a portion of the correspondence relative to this question brought proceedings pending in court to a halt.

President Hays stated at the outset that he had received a letter from Mayor Lee in which the latter committed the city to the paving of the south side of the street on condition that the G. T. P. would consent to a transfer of the G. T. P. tracks to the north side. The city was to pave the street through to the western limit of the plans of the proposed G. T. P. hotel were averted before the council. The plans and perspective drawings of the proposed hotel are however, only tentative, and they may be subject to considerable modification.

There is also in existence an agreement between the G. T. P. and C. N. R., whereby both companies agree to a change in the track location, on condition that the city meet the cost of paving the south side of the avenue. The council, however, has received no intimation from the C. N. R. that this company is agreeable to the change, and will satisfy itself as to the Canadian Northern's willingness to permit the change. A couple of weeks will probably suffice to clear up the point at issue.

To legalize any change in the location of the G. T. P. tracks, it will be necessary to submit a bylaw to the people, and the companies ask that such agreement contain a clause binding the city to the payment of the avenue. To this a number of aldermen raised objection, pointing out that the avenue will be paved by petition in

HOME BUILDING MONEY AVAILABLE AT 5 PER CENT.

FINANCIAL CONCERN OFFERS LOANS AT LOW RATES TO HOME BUILDERS.

The Canadian Home Investment Company about to open offices at 212 Jasper Avenue East is the first financial institution in Alberta loaning money at 5 per cent. The company has every feature of their plan for loaning to the borrower safeguards the investor and gives the saver better opportunities to save.

The new company which has been incorporated but a short time, has a complete plan whereby the saver, the investor, and the borrower each has a great advantage over the old methods of financing. The plan which they use must indeed be a great advantage to the borrower because he not only gets the money at five per cent but he has ten years and six months to return the amount borrowed in monthly installments. The value of the plan to the investor lies in the fact that it is perfectly void of anything of a speculative nature. Its advantage to the saver is that it gives to him an interest of more than 6 per cent.

The advantages of borrowing from a company with an accumulation plan is worthy of expression. In the first place a man with a loan from a company whose plan is that of accumulation of money gathered from the masses in sections where money is cheap as well as from the masses in sections where money is high does not of necessity, through worry, stay awake nights wondering how he is going to meet the obligation when it comes due for under the accumulation (of which it appears the Canadian Home Investment Company excellently lead in this part of Canada) he knows that as long as he keeps up his monthly installments his loan cannot be called whereas in the case where he borrows from the individual he always has that fear that the lender may suddenly ask for his capital and he would be put to disadvantage to immediately locate someone who would immediately come to his rescue especially in times when there is a stringency in the money market, and money to the borrower is at a premium.

Under the accumulation plan of the Canadian Home Investment Company a stringency in the money market does not affect the interest of the borrower

nor does the man with money have any advantage over the man who can just save sufficient to meet his obligations. Everyone under this plan of accumulation is financially equal as far as their positions with the company is concerned.

This plan has been used by a company in the United States for a number of years and through it have built up their assets to something more than a million dollars and have stood the most rigid investigation of actuaries, auditors, and bank examiners, representing the states in which they do business. The plan was made clear in detail. He stated that it would be the pleasure of the officers and staff of the company to make clear their system of financing to the borrower, investor and saver. The new head quarters of the company will be at 212 Jasper Avenue East, Edmonton.

A convention of the International Bond and Shoe Workers' union will be held in St. Paul this month.

WILL NOT CLOSE McDOUGALL AVE.

IF G. T. P. ERECTS STATION ON PROPOSED SITE SUBWAY WILL BE BUILT.

The request of the Grand Trunk Pacific railway officials that the city consent to close McDougall Avenue from Clark Street to Isabella, was not pressed by the president and vice-president of the company at their meeting with the council last evening.

While aldermen were reluctant as to the cause of the sudden dropping of the subject, Vice President Chamberlain informed a Capital reporter that the company had at no time thought of pressing their request. It was merely suggested to the council that McDougall Avenue would be an excellent location for the Grand Trunk Pacific station, but there the matter ended. Mr. Chamberlain thought that the construction of subways would obviate any traffic difficulties which might be occasioned by the erection of the station at this point.

The amount that may be recovered for death by industrial accidents in Minnesota has been increased from \$5,000 to \$7,500.

Oliver Needs to Be Saved From His Friends

By a compilation of the explanations offered in his behalf by the friends of the minister of the interior that gentleman is placed in a rather bad hole; so bad, in fact, that he could well ask to be saved from his friends.

In a lengthy dissertation on the philosophy of campaign funds, the Calgary Albertan, which is the greatest champion in the defense of Oliver, intimates that while the theory of campaign funds is that they are contributed by rich men who have a purely sentimental interest in seeing certain party principles triumph, the fact is that campaign funds are usually an investment by the interests who pay the election expenses of candidates and parties in the hope that they will profit by favors handed out after the election.

Senator Talbot explains that the \$69,350 placed to Oliver's account in the Imperial bank in Edmonton was campaign funds.

This leaves only one thing missing, which some other good friend of Mr. Oliver might explain; that is why, if the money was campaign funds, did the minister of the interior not use it for that purpose alone and why, with a balance still in the bank and more coming again after the election, did he not pay all expenses?

Going It Blind in Million Dollar Game

From the city hall there comes a rumor that the street railway has commenced to make money, and to anyone who takes note of the crowds who travel by the city's most valuable utility it is easy to believe that this is the case, but, for reasons not very apparent, there are no figures to show what the profit is.

From the statements—or lack of them—which emanate from the city hall, it is apparent that there is nothing to show what the operation of the street railway is costing, or at least what power costs the street railway.

This seems a most remarkable state of affairs, especially in view of the fact that the power plant is a separate institution which is in the business of manufacturing power for the street railway and the light department.

If the management of any privately-owned industrial institution should report to the stockholders that the concern was making money, but that they could not tell how much because the management had no idea what the cost of operation was, it is not likely that the management would be very long in control of the business. Yet the city of Edmonton has had no statement from the city hall since last November of what the profit or loss of the street railway is.

To the ignorant observer it does not look a very difficult feat to figure up at the end of each month how the street railway stands, and certainly there are not many communities that would be willing to go it blind for months at a time where a cool million is involved. In Calgary the ratepayers get a statement through the newspapers every first of the month showing what the street railway has done in the month previous and the figures constitute the finest piece of publicity literature that the city of Calgary has yet produced. Edmonton is entitled to the same information with the same promptness. If Mr. Bouillon's system of book-keeping is such that he cannot give the figures, it is time that the system was changed and the change cannot be made too soon.

Sinister Appearance Of Borden's Shadow Fight

One of the posers which the United Farmers have prepared for R. L. Borden when he arrives in Alberta is why he spent months in obstructing reciprocity and put up only a shadow fight against the \$35,000,000 guarantee to the C. N. R.

There is something very sinister about Mr. Borden's actions as a public man. In his Halifax platform of 1899 he declared for government ownership of railways, yet when the time comes to extend the Intercolonial to the west he makes only the most perfunctory demonstration against handing over the country's credit to a private company to build the line which the government should build in the interests of the whole people.

If Mr. Borden was in the least degree sincere in his pronouncements he would not allow such an opportunity to slip by without a fight, and if he really wanted to merit the farmers' votes he would not waste time declaiming against reciprocity when the railway legislation before the house furnished him such a right and brilliant opportunity to make himself solid with the whole population west of the lakes.

JUST PARAGRAPHS

Talk about making two blades grow were but one grew before, but if this two-hundred million prediction of William Whyte's comes true and the crop this year is just double that of last year, some misguided persons, who have not had the good sense to come to this pulsating and gigantic west will awaken suddenly to a realization that there are things doing in this free and vernal country where the prairie breezes blow—or words to that effect.

While they are building that stock pavilion out at the grounds this tropical weather carries the suggestion that one of the finest attachments which could be added thereto would be a plunge located about the middle of the arena—not so much for the convenience of the blue-blooded stock as for the use of ordinary human beings.

Come to think of it, that business of President Taft refusing to pardon two millionaire bank-wreckers brings to mind the fact that very few millionsaires in Canada get so far along that they need a pardon. Suppose somebody should show where the \$69,350 came from? Would there be anybody put where there was a pardon needed then?

Ottawa is putting squirrels in Rockcliffe park. Out West, when we want a few pets we round up a herd of elk or corral a few buffalo. No intimation, of course, that the Capital lacks imagination, but it is a fact that people's ideas become larger as one travels west.

CITY SUPERINTEND'T MARRIED TODAY

ALEX. MACLEAN AND MISS ALICE PINCKSTON UNITED IN MARRIAGE THIS MORNING

The wedding took place at 8 o'clock this morning at the bridegroom's home, 708 Seventh street, of Mr. Alex. MacLean, superintendent of the Edmonton waterworks department, and Miss Alice Pinckston, second daughter of Mr. Frederick Pinckston of this city. The nuptials were solemnized by Rev. Dr. McQueen, and the groomsmen were Mr. A. J. Laford, city engineer, Miss L. M. Pinckston, sister of the bride, attended as bridesmaid.

Mr. and Mrs. MacLean left the city on their wedding tour for Boston, New York, on the 9:30 train, and will be away from the city for about three weeks. On their return a reception will be held at their home on Seventh street. During his absence from the city Mr. MacLean will attend the annual convention of waterworks superintendents to be held in Rochester.

BIG AUCTION SALE OF RESIDENTIAL LICENSES

This afternoon and evening at Empire theatre, 700 lots appropriated to Edmonton by Red Deer River License Coal Investment Co.

The citizens of Edmonton will have the opportunity today of buying at their own prices, 700 of the choicest lots of residential license adjoining the Grand Trunk Pacific townsite of Leduc, which already has a population of over 700, and has the promise of two more railways with an abundance of coal which is bound to make the buyers of this property rich in the money during the next few years. Already three blocks of residential license have been sold in Calgary and Lethbridge. The 700 lots which are appropriated to Edmonton will be sold this afternoon and evening without reserve. The auctioneer's instructions are to sell every lot regardless of the price they will bring. No lots will be knocked down or pulled in if the highest bid is \$10 or \$20 or \$30, or \$5 the lots will go to the highest bidder. This is the first sale of its kind ever pulled off in Edmonton. There were over 700 of these lots sold in Calgary in one night and we predict the Edmonton speculators will take advantage of this unique sale.

The doors open at 2:30 and 7:30 this afternoon and evening at the Empire theatre with J. X. Squires acting as the agent. Bring around your money as the terms of the sale are cash. There is no better investment offered than this residential license, as the future of Leduc is assured, and already stores, barber shops, pool rooms,ivery barns and coal mines are under way.

In the neighborhood of 100 new telephones were installed by the telephone department during the month which closed last evening. The exact figures will be available in the course of a few days. Close upon 2900 telephones are in use in Edmonton in connection with the municipal system, and the subscribers now number over 2,500.

COMMISSION MEETS;
LENGTY SQUABBLE

BOUILLON ACCUSES THE MAYOR OF OPENING TENDERS AHEAD OF MEETING—DEFT HURLED BACK

One of the chief features of the commission meeting yesterday afternoon was a lengthy squabble over rival claims which culminated in Commissioner Bouillon directly accusing Mayor Armstrong of opening a telegram containing a tender on power machinery, before the same was opened at the commission meeting. Mayor Armstrong hurled the deft back by ripping open the message and disclosing the fact that it was a copy of a message which he had sent out, much to the discomfiture of the utilities commissioner, who maintained a discreet silence for a considerable length of time.

The tenders for supplying the city with a 2,000 k. w. unit for the power plant were all opened and after a lengthy and somewhat pointless discussion, the tenders were referred to Superintendent Hoffman for an analysis, with instructions to bring in a report at the regular meeting of the city commissioners this afternoon.

When the power machinery question first came up, Bouillon remarked that they had voted for tenders and that he had these on hand.

At the same time that he was holding a telegram, and the utilities commissioner remarked: "If that is a tender, Mr. Mayor, I wish to say that it has been opened before it was brought to this meeting."

Mayor Armstrong: "This is not a tender, Mr. Bouillon. It is a copy of the message which was forwarded to different firms."

Then Followed the Scene

Commissioner Bouillon asked that the Parsons report and the specifications on which the new tenders were based be brought down. The Parsons report was submitted and the telegram which had been sent to various firms laid on the table. The commissioner then entered into a lengthy discussion in which he tried to show that the order was not placed according to instructions. It had nothing to do with the Parsons report. He also tried to show that the mayor was responsible for holding up the purchase of machinery, and failing in this, agreed to the submission of the tenders to the superintendent of the power plant. Prior to this he had been given to understand that the city was not going to be held up for power through the interference of frivolous objections. "We are least business like men," remarked the mayor, "and do not need to tie up the business of the city by lengthy discussions of technical points."

A communication from the minister labor asking for details regarding the application of the electrical engineers of the city for a board of arbitration was read and turned over to the

The contract for the construction of the power house roof was awarded to Messrs. Building Inspector Gutter, his tender being \$9,192.

Six tenders for supplying the steel work for the east end bridge were referred to the city engineer for analysis as were also seven tenders for the concrete portion of the structure.

Eight tenders, ranging from \$200 to \$225, for repairs to the roof of the city hall, were referred to the building inspector with instructions to let the contract to the lowest tenderer.

Four tenders for paving were received and had on the table until today, when the engineer will be present at the meeting. The tenders were Edgar Construction company, concrete, \$249; Blome company, granite, \$273; Ashall company, Winnipeg, \$284; Blithillie Contracting company, \$290.

During the brief discussion of the tenders Commissioner Agar inquired as to whether or not the petitions called for a certain type of pavement. To this Commissioner Butchart replied that they did not, and it would not make any difference if they did. The ratepayers who were attending did not know what they wanted, anyway.

A communication was received from the C. N. R. intimating that they intended to appeal against the decision of the railway commission which provides that the company must pay for the upkeep of the bridge over the Saskatchewan.

Superintendent McLean was granted two weeks' leave of absence in order that he may attend the convention of waterworks engineers to be held in Rochester, June 6th to 10th.

The Exhibition association were asking that arrangements be made so that in carrying out the paving programme the street railway schedule over the Jasper avenue and 10th street would not be interrupted during exhibition week. Referred to the city engineer.

At the same time that he was holding a telegram, and the utilities commissioner remarked: "If that is a tender, Mr. Mayor, I wish to say that it has been opened before it was brought to this meeting."

Mayor Armstrong: "This is not a tender, Mr. Bouillon. It is a copy of the message which was forwarded to different firms."

NEWS OF THE CITY

At last night's meeting of the board of directors of the Y. M. C. A., H. S. Sneyd was appointed assistant secretary to succeed Mr. P. F. Broadwell. Mr. Sneyd will attend the Canadian summer school and assume his duties about Sept. 15th.

Mrs. T. M. Grindley and daughter left last night en route to England, where Miss Grindley will take a special course in music. Mrs. Grindley will remain in the old country until after the coronation.

Services preparatory to the communion will be held this evening at 8 o'clock in First Presbyterian church. P. G. Buchanan, G. P. H. city freight agent, left by C. N. R. last night for Owen Sound on account of the serious illness of his mother, who resides there.

SPECIAL PRIZES FOR GARDENS COMPETITION

In connection with the gardens competition to be held under the auspices of the Edmonton Horticultural society four special prizes are to be awarded by Geo. P. Miller, nurseryman, for the best kept lawns in the city. Two first and two second prizes will be given, for the territories east and west of First street, and the taste and care displayed in the cultivation of city lawns will determine the awards.

The arrangement and selection of trees and shrubs and borders will be taken into consideration. Entries are now being received by secretary Harry H. H. at the horticultural society's main exhibit will be held during fair week at the exhibition grounds.

SPECIAL RATES TO EDMONTON EXHIBITION

Special rates for the convenience of visitors to Edmonton during fair week have been announced by the railway companies of the west. The rates will be the same as last years, practically single fare over all lines in Alberta and Saskatchewan, while Kitchell and Reston and stations west of these points in Manitoba, will also have the special rates extended to them this year. For judges and exhibitors the cheap rates will apply to all stations in the western provinces.

For the general public the period during which bookings may be made by the exhibition excursions, extends from August 12 to August 18 inclusive and the latest day upon which the return journey may be commenced is August 22. Judges and exhibitors on presenting standard certificates, may obtain the reductions at any time between August 16 and 18, and return by excursion tickets up to August 21.

SETTLERS EXCURSIONS

Fifty-seven settlers left Montreal on May 29 on the excursion organized by L. H. Maclell, provincial publicity agent in the Canada's premier eastern port. A wire announcing the departure of the train was received by Publicity Commissioner Holchvsky this morning. In addition to the eastern settlers who will arrive in Edmonton by this special excursion over the G. T. P. 125 immigrants who disembarked at Montreal a couple of days ago, are also heading for Edmonton.

HYMNAL

On May 25th at the house of First Presbyterian church, Robert W. McIntyre was married to Miss Margaret A. Tinn. The ceremony was performed by Rev. Mr. McIntyre.

The marriage of Dean O. Crocker to Miss Ida May Fitz was solemnized at the house yesterday by Mr. McIntyre of First Presbyterian church.

At the residence of the bride's brother, Arthur Gordon of 217 Seventh street, David Henderson was married yesterday to Miss Mary Gordon. The ceremony was performed by Rev. Dr. McIntyre.

NEW REALTY FIRM

OPENS ON FIRST STREET
Enders and Payne, two enterprising young men from the United States, after having looked well over the towns of Western Canada, have selected Edmonton as the coming city of the west and have opened a real estate office at 244 First street. Real estate in Edmonton appears to be in a healthy condition for them and Mr. Enders is of the opinion that the coming year will see great strides in the development of the city.

Mr. Enders is from Oklahoma City, where he for many years has been at the head of the Enders Furniture company of that city. Mr. Payne is a native of Council Bluffs, Iowa, and has been in business of various kinds in different parts of the States for many years. During the past few years his home has been in Chicago.

REAL ESTATE FIRMS JOIN

An amalgamation of the businesses of Sanderson-Lowe Co., Limited, and O. Bush and company has been arranged dating from June 1st. Both offices will be continued as before and under the same staffs. Mr. Bush still retaining an interest in the business. As these firms are the oldest and best known real estate, insurance and general financial brokers in Strathcona, the combination will take its place among the premier organizations in Strathcona, with exceptional connections and facilities for the transaction of all branches of this class of business.
